MAGAZINE SUMMARY

Magazine is an application to help University manage contribute of students. Not only manage contribution, but also approve or rejected article, which has been provided by students. Manager can observe article that coordinator has approve, viewing analysis data chart.

There will be roles and each user assign to, which will be listed below:

- Admin
- Coordinator
- Manager
- Student
- Guest

Roles/Function	Admin	Manager	Coordinator	Student	Guest
Create, Edit, Delete user, terms	✔				
Analysis Data	✔				
Upload article				✔	
Download file		✔	✔	✔	
Approve or Reject article			✔		
View article	✔	✔	✔	✔	✔
Live chat session			✔	✔	

EMAIL NOTIFICATION

When student created article, the system will automatically send an email to notify coordinator with the same faculty, The email will include information of student's name, hyperlink of contribution article.

This function helps notify coordinator whenever contributor submit article, then coordinator with a single click can redirect to the blog, without wasting time to search for the article.
